* Tanks in readiness category 3 and 4 only. Category 3 tanks required 'medium repairs' to be done at the district level in peacetime, or army or higher level in wartime. Category 4 tanks required a major rebuild or 'capital repairs' to be done in central depots or in the factory, to re-enter service.

*^ Includes the approximately 11 000 naval personnel in the 1st Naval Infantry Brigade, coastal artillery defence units and railroad artillery units in the Leningrad Military District. The total personnel allocated to these these combat units is 10 725.
